If the retailer's current sales are \$100,000, the new sales will be \$110,000.		
Item No.	Manufacturer's Suggested Retail Price	New Price
1000002	\$25.00	\$27.50
If the retailer's current sales are \$100,000, the new sales will be \$110,000.		
Item No.	Manufacturer's Suggested Retail Price	New Price
1000003	\$10.00	\$11.00
If the retailer's current sales are \$100,000, the new sales will be \$110,000.

**4. Advertising Your Small Business**  
 Small businesses must promote their products or services to attract customers. Advertising is a key part of this process. There are many ways to advertise, including print, radio, television, and online. Each method has its own advantages and disadvantages. For example, print advertising is often more targeted, while television advertising can reach a larger audience. Online advertising, such as search engine optimization and pay-per-click, can be very effective for reaching specific demographics.

“The quality of the water is important, but it’s not the only thing that matters,” says the author. “The water is just one of the many factors that can affect the health of the fish. The other factors are the quality of the food, the quality of the oxygen, and the quality of the environment.”

A collection of various lamps and candelabras. In the foreground, there are several table lamps with glass shades and ornate bases, some with decorative finials. Behind them are several multi-arm candelabras, some with lit red candles. In the top right corner, there is a small inset image showing a two-arm candelabra with lit candles. The background is dark, and the overall lighting is warm.
